

Application No. 10/051,140
Amendment dated September 21, 2006
Reply to Office Action of July 17, 2006

Docket No.: 47123-00073USPT

REMARKS

The amendments suggested in the Office Action for claims 73 and 123 have been made, thereby overcoming the objections to these two claims.

A terminal disclaimer is submitted herewith, thereby overcoming the non-statutory obviousness-type double patenting rejection.

Accordingly, this application should now be in condition for allowance.

Dated: September 21, 2006

Respectfully submitted,

By
